Annex 17: CERF life-saving criteria and activities related to GBV

The activities most relevant to GBV in emergencies that meet the CERF life-saving criteria (2010) are listed below, along with activities that are funded for other clusters/sub-clusters, which can potentially integrate GBV interventions. Consult the full text of the CERF life-saving criteria for more information.

agency multi-sectoral GBV programme response including ensuring provision o accessible confidential, survivor-centred services to address GBV and ensuring it i appropriately addressed across all sectors. In an emergency context and as a firs priority, support health service providers with relevant supplies and ensure a range of appropriate psychosocial interventions are in place and accessible. Identify high-risk areas and factors driving GBV in the emergency and (working with others) strengthen/set up prevention strategies including safe access to fue resources (per IASC Task Force SAFE guidelines). Improve access of survivors of gender based violence to secure and appropriate reporting, follow up and protection, including to police (particularly women police or other security personnel when available. Child Protection Identification, registration, referal and follow-up for other extremely vulnerable children, including survivors of GBV and other forms of violence, children with no access to basic service and those requiring special protection measures in the context of specific emergency response. Advocacy, awareness-raising, life-skills training, and livelihoods in the context of specific emergency response. Provision of psychosocial support to children affected by the emergency, e.g. through provision of child-friendly spaces or other community-based interventions return to school or emergency education, mental health referrals where expertise exists in the context of specific emergency response. Protection Deployment of Emergency Protection Teams in disasters and emergencies. Identification and strengthening/set up of community-based protection mechanisms in the context of specific emergency response. </th <th></th> <th></th>

severe mental disorders (suicidal behaviour, psychoses, severe depression and	Health	Medical (including psychological) support to survivors of sexual violence. Activities may include updating health staff on clinical management of sexual violence protocols; supply of drugs and material (including through RH kits) in the context of specific emergency response.
		Support the provision of Psychological First Aid – protect and care for people with severe mental disorders (suicidal behaviour, psychoses, severe depression and substance abuse) in communities and institutions.

сссм	Support the delivery of essential life-saving services until services have been established.
	Advocate for humanitarian access to allow life-saving activities to be conducted in communal settings in coordination with the protection cluster/sector.
Education	Essential life-saving skills and support such as SGBV information, Mine/UXO risk reduction, HIV/AIDS, psychosocial, nutrition, health and hygiene.
WASH	Hygiene and sanitation supplies (including for women and girls) and awareness raising.
Cross-cutting: Coordination	Provision of assistance to coordination efforts in new disasters. Funding for cluster/sector coordination, (cluster coordinator only) will only be supported in new emergencies and only under the RR window where there is a demonstrated need for support. This coordination person must be part of a larger agency project, which has been prioritized by the RC/HC and HCT. Coordination will not be supported in a stand-alone project.
